- Shortlisting is based on quality open-source contributions, especially pull requests (PRs)

Program	Students available to join in Nov 2025 between Jul 2026
Vacancies	75

Career Progression

Your career will start as an **Associate Software Engineer** and progress to be **Software Engineer → Senior Software Engineer**. Usually, this takes 3 to 5 years.

Thereafter, as your experience grows, depending on your skills and interest, you can continue to grow further into the engineering side (**Lead Engineer → Principal Engineer**) or can have exposure to some business side, along with engineering responsibilities. (**Engineering Manager → Director of Engineering**).

Alt Image

rtCamp is flexible in internal job switching and some people who joined as engineers in the past, today work in roles such as Project Manager, Business Analyst, Client Strategist, and also in the marketing team.

rtCamp

"Good Work. Good People." We are committed to providing equal employment opportunities to all individuals based on their skills, qualifications, and professionalism, without regard to age, race, gender.

⚠️ **After logging in and registering via GitHub, make sure to submit your application for this position.**
